FOCUS CONSULTING PROJECT

Refurbishment and Repair of The Front Elevation - Hove

Client:
Property Fusion

Project Summary:
Managed the refurbishment and repair of the front elevation at a property in Hove. The project involved external works, including render and masonry repairs, decoration of windows, doors, and boundary elements, and addressing water ingress and drainage issues. Internal works included plaster repairs and redecoration of affected communal and flat areas. A focus was placed on preserving the building's character while ensuring high-quality finishes and compliance with safety standards.

Services:
Contract Administration

Date:
2024
