FOCUS CONSULTING PROJECT

Building Survey Inspection & Report - London

Client:
Private

Project Summary:
Residential building survey of a top-floor, split-level leasehold flat within a five-storey, end-of-terrace period property located in London. The instruction was to undertake a comprehensive building survey inspection and provide a detailed report on the visible condition and state of repair of the subject flat, including its internal and external common areas and the overall building structure.

Services:
Building Survey

Date:
2024

PDS No:
73
